

| Model No. | Length & Width(mm) | LED Q'ty | LED Type | Light Output (mcd) | Light Output (lm) | Beam Angle | Voltage (V DC) | Current (Amps) | Max. Power Consumption(W) | Continuous connection length (m) |
|------------|--------------------|----------|----------|--------------------|-------------------|------------|----------------|----------------|---------------------------|----------------------------------|
| SC-WID-RGB | 5000 X 14 | 150 | SMD LED | 150X1500 | 625 | 120 | 12 | 2.6-3 | 36 | 100 |

-They are many types of LED strips in the market. But there is never such a strip like waterproof DigiRibbon™II. The patent pending ribbonlight combines so many unique features

- flexibility- SC-WID-RGB can be bent at any angle.
- digital color change-The built-in programs release the auto-run modes for color change patterns
- strong humidity resistance- which allows the strip exposed to be applied as an aquatic product
- compact size- It has a super slim shape width only 14mm.
- abundant color modes-Up to thousands of color change modes can be put in the programs.
- vivid color effects- All individual LEDs are red green and blue 3-in-1 type.
- intelligent electric design-Users can cut the ribbon every 3 LEDs.
- continuous light connection- It can run 100 meters continuously.
